Subject: Permit to Commence Small Mining Operations, Interstate Brick Company, Red Summit Mine, S/043/031, Task ID# 1762, Summit County, Utah

Dear Mr. Hewitt:

The Division finds your notice of intention (Notice) complete and approves the reclamation surety for the Red Summit mine. You are now permitted to conduct small mining operations as outlined in the Notice provided you have written approval from any other appropriate agency.

Please keep in mind the following regulatory requirements.

- The Division must be notified no later than 30 days after beginning mining operations.
- Mining disturbance is only allowed in the area identified in the Notice and Reclamation Contract.
- Stockpiling topsoil material prior to beginning activities will help ensure successful revegetation. Even the first few inches of undeveloped material are worth saving to aid in later revegetation efforts, and future regulatory surety release.
- If you encounter any archaeological or historical items, you are asked to notify this office and State History of your find.
- Permit fees are due July 30.
- Annual reports are due by December 31st.
- The reclamation surety will be reviewed every 3 years.
- The Division request that the disturbed area boundary (including assess/haul roads) be marked with metal T-posts to identify the area permitted for mining.
